Design it your way online!

sublimation polo & rugby 55 brand new designs to choose from!

Sublimation of your chosen design is very different from traditional screen printed images. Rather than a printed ink adhering to the fabric surfaces, sublimation involves heat and pressure application to actually bond the sublimation dye colours into the fabric fibres on a microscopic level. The base fabric is always white.

- Sublimation Polos are made of 170 gms Micro Pique, with a fabric collar in your choice of colours
- Sublimation Rugbys are made of 280 gms Moisture Managed Microfibre with a fabric collar
- For more design options, visit [www.personalitees.com.au](http://www.personalitees.com.au)
